PT CIPTA MEDYA FILTER
PT CIPTA MEDYA ENGINEERING

Specialist in producing filter bag, filter cage, dust collector's accessories
& manufacturing dust collector including modification and maintenance services

GO GREEN!

BLUE&SKY and BLUEGREEN are insightful environment products that dedicate our missions in maintaining fresh air to preserve our universe by removing dirt, dust, debris, gases and chemicals from the air, providing your factory with cleaner air, which can provide numerous benefits

ABOUT US

PT. CIPTA MEDYA FILTER
Specialist in producing filter bag, filter cage and dust
collector's accessories

PT. CIPTA MEDYA ENGINEERING
Specialist in designing and producing dust collector
including modification and maintenance services

CEO MESSAGE

PT.CIPTA MEDYA FILTER was established in 1999. We dedicate our experiences to air filter industry and always maintain our services to customers. We place our best engineering team which is supported by experienced technical crew. We commit to increase our services value and assure the exactly match to customer's unique requirement, because we identify the problems and provide conclusions with best performance and efficiency result. Finally, as part of global spirit to bequeath clean air to future generations and living organism over the earth, it is our duty to maintain the harmony of our fresh environment

Alex Wijaya

OUR PRODUCTS

1 FILTER BAG

We provide air filter bag need in Indonesia industry for more than 20 years. Our products have high end performance and durability according to customer's requirement and needs. Certainly, we will always innovate our services to latest technology of design, system, and materials.

Our Special Materials

POLYESTER (PE): Mining, Cement, Iron & Steel, Aluminium, Non Ferrous Smelting, Wood Processing, Ceramics, Quarry, Dyestuffs, Plastics, Flour Mills, Milkpowder (Application under DRY conditions and temperatures bellow 150°C)

HOMOPOLYMER ACRYLIC (HP): Asphalt, Spray Dryers, Waste Incinerators, Coal Drying Milling, Detergents, Dyestuffs, Powerplans (Application under HUMID conditions at temperatures of 125°C, Peak 140°C)

HOMOPOLYMER ACRYLIC + POLYESTER (PE/HP): Special Quality for Coal Drying Grinding (Application under HUMID conditions at temperatures of 125°C, Peak 140°C)

POLYPROPYLENE SULFIDE (PP): high temperature performance polymer with a high melting point of approximately 280°C, excellent chemical resistance and is inherently flame retardant

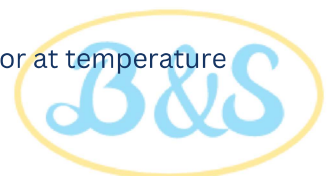

AROMATIC POLYAMIDE (NO): Asphalts Plants, Iron & Steel, Quarry, Non Ferrous Smelting Plants, Ceramics Industry (Application under DRY conditions at temperatures of 180°C, Peak 220°C)

POLYPHENYLEN SULPHIDE (PPS): Coal Fired Boilers, Waste Incinerators, Ferrous and Non Ferrous Smelting Plants, Chemical Industry (Application under MODERATE chemical aggressive conditions at temperatures of 190°C, Peak 200°C)

POLYIMIDE (P84): Chemical Industry, Ferrous and Non Ferrous Smelting Plants, Waste Incinerators, Coal Fired Boilers, Quarry (Application under MODERATE chemical aggressive conditions at temperatures of 240°C, Peak 260°C)

POLYTETRAFLUOR-ETHYLENE (PTFE): Chemical Industry, Coal Fired Boilers, Waste Incinerators, Powerplants, Carbon Black, Non Ferrous Smelting Plants (Application under EXTREME chemical conditions at temperatures of 250°C, Peak 280°C)

FIBRE GLASS: Application for hot gas, furnace, boiler, coal dust and incinerator at temperature max 300°C.

OUR PRODUCTS

2 FILTER CAGE

Our cage is produced using modern technology with high quality of machineries and experienced technicians. The joint rings, trunk-wire, venture, and other accessories are assembled primly to minimize frictions between cage and bag filte

Our Special Materials :

GALVANIZED : Lifetime 5 – 7 Years

STAINLESS STEEL : Lifetime above 10 Years

Standard size of filter cage

1. Ø 115 mm x 2000 - 3500 mm
2. Ø 120 mm x 2000 - 3600 mm
3. Ø 130 mm x 2000 - 4000 mm
4. Ø 143 mm x 2500 - 4500 mm
5. Ø 153 mm x 2500 - 6000 mm
6. Ø 160mm x 8000mm
7. By request

OUR PRODUCTS

3 SPARE PARTS

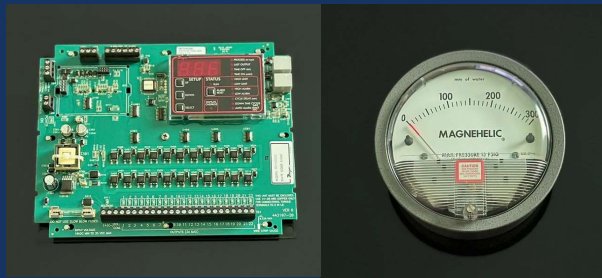

SOLENOID VALVE

DIAPHRAGM VALVE MEMBRANE KIT

TIMER CONTROL & PRESSURE GAUGE

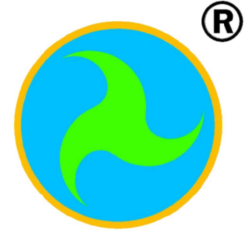

AIR SLIDE CANVAS

FAN BLOWER

DUST COLLECTOR

BLUEGREEN
Environment Management

In addition to the air filter, we produce Dust Collector. This tool is used to improve the quality of air expelled from industrial processes by collecting dust and other impurities from the air.

WHAT IS IT?

A dust collector is a system used to enhance the quality of air released from industrial and commercial processes by collecting dust and other impurities from air or gas. Designed to handle high-volume dust loads, a dust collector system consists of a blower, dust filter, a filter-cleaning system, and a dust receptacle or dust removal system. It is distinguished from air cleaners, which use disposable filters to remove dust.

OUR SERVICES

WE CARRY A PASSION FOR PERFORMANCE MARKETING

MANUFACTURING

We manufacture various kinds of air filters include filter bag, filter cage and filter press cloth which can be used according to customer needs.

MAINTENANCE SERVICE

We not only produce but we also provide full line of services and maintenance for your dust collector, bag house or cartridge collectors

ENGINEERING

In addition to the air filter, we produce Dust Collector. This tool is used to improve the quality of air expelled from industrial processes by collecting dust and other impurities from the air.

WHY CHOOSE US

CUSTOMER SERVICE

We are ready to serve your questions regarding our services and products

BEST TEAM

We have the best technicians ready to assist in planning and realizing the customer needs

EXPERIENCE

More than 20 years of work, we have a passion and an amazing experience

RESULT

We are ready to serve the unique demands of our consumer with excellent results

PT CIPTA MEDYA FILTER

Specialist in producing filter bag, filter cage
and dust collector's accessories
